## Frequently Asked Questions

### What is your training philosophy?

We offer POSITIVE reinforcement training based on scientific methods. We DO NOT use E-collars (shock collars), prong collars, choke chains, etc. We NEVER use scare tactics or harmful methods.

### Where are private sessions held?

Private sessions are held in the comfort of your home or location. Only when your dog is ready for distractions do we venture outside of their comfort level to parks and other populated areas.

### Are family members present during the sessions?

Absolutely! We encourage all family members to take part in the training! The more involved and consistent your family is in the dog training process, the quicker your dog will learn!

### My dog is 8 years old, can he/she still be trained?

Yes, old dogs CAN learn new tricks! We train dogs of all ages, from puppies to seniors.

### How long are the private/day training sessions?

Most sessions are about one hour long.
